

Landing

I am flying away from the sun
And the sun from me
And if I end up dark
Will you come to me

*Bring down big bird
Bring down Mama love
Find your way to me*

I am running among the stars
And the stars roam free
And if I end up lost
Will you wait for me

There's a tumble in the wind
'Round a dream of rain
And if I end up torn
Can we mend again

There's a howling in the earth
As we bleed from bone
Some day, my darlings, you
Will show us all back home

I am flying away from the sun
And the sun from me
And if I end up gone
Will you come to me
